

Providing Secure & Anonymous WebTips

Being well aware of the inherent risks involved with taking tips over the web, Anderson Software spent over four years developing and perfecting this very unique and extremely effective product.

The result is a very functional and easy-to-implement WebTip application that meets all of your online tip taking needs.

Full two-way dialogue capabilities with the tipster

Supports uploaded image and video files

Bilingual form available in English, Spanish and French.

Seamlessly receive WebTips directly into TipSoft

Utilizes a secure connection on a highly secured server

Optional reception of WebTip via e-mail as encrypted PDF file

Easily and seamlessly embeds into your own website

Enhances efficiency and increases the effectiveness of your program's operations

WebTips have more than doubled the monthly tip volume for many agencies!
